Property Essentials Breakdown

Two 'triangles'

- Property essentials
 - Subject
 - Object
 - Legal Relationship
- Leading Principles
 - Numerus clausus
 - Transparency
 - Hierarchy

Property Essentials Breakdown

Changes regarding subjects

- Can nature become a subject?
- Can data (software) become a subject?

Property Essentials Breakdown

Changes regarding objects

- Can an object become a subject (nature)?
- Can a subject (consumer) become an object (data profiling)?
- Or does the object then become a subject (a digital copy of him/herself: avatar)?

Property Essentials Breakdown

Impact of these changes on legal relationships

1. What does this mean for our understanding of ‘ownership’ or, more generally, property rights?
2. What remains of the distinction between a property right and a contractual right/tort duty?
 - *Example: Is the Digital Euro a contractual right against the bank that holds the Digital Euro account, or is it a proprietary right against the ECB (or NCB) with erga omnes effect, because it is equal to cash? Or is it both?*

Property Essentials Breakdown

Numerus clausus

- *Explicit aspects*
 - Substantive (number and content)
 - Procedural (creation, change, transfer and termination)
- *Implicit aspects*
 - Subject
 - Object

Property Essentials Breakdown

Transparency

- Specificity
 - How specific are data? How specific is a ‘mountain range’?
 - What constitutes a data cluster or a ‘river’?
 - Problem of accession (what ‘belongs to’ an object)?
- Publicity
 - Data society – Privacy
 - Anonymous/Pseudonymous systems

Property Essentials Breakdown

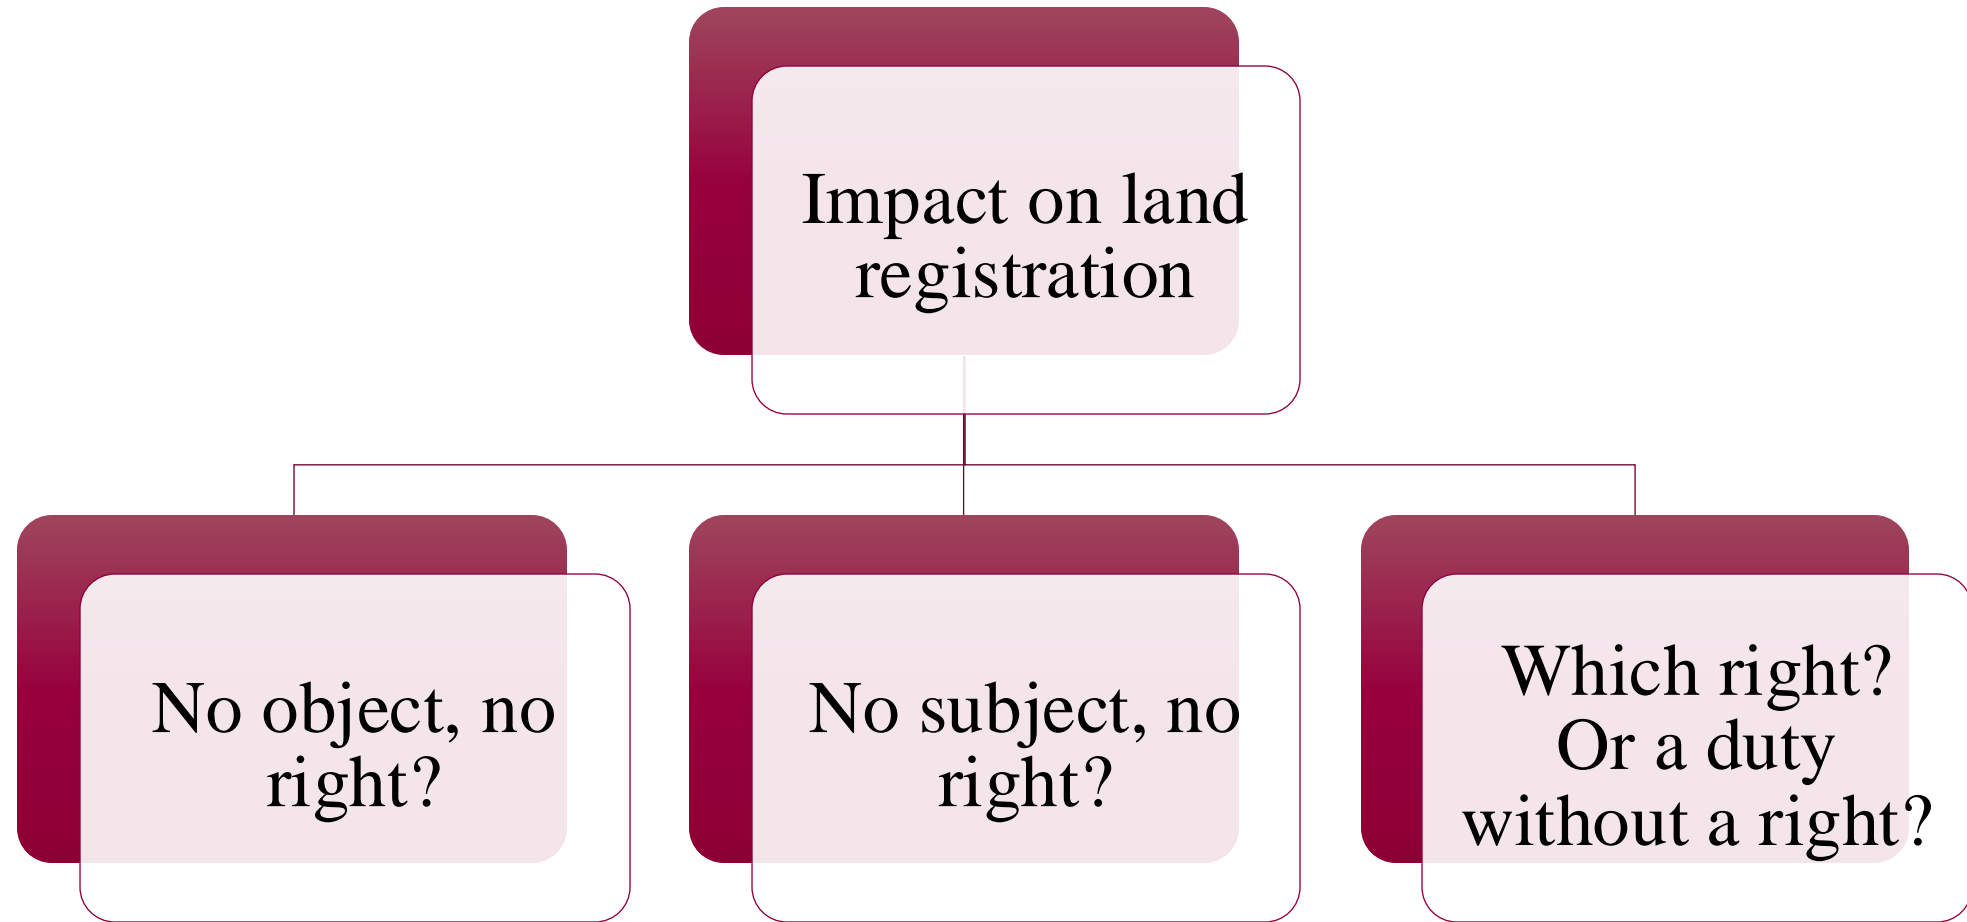

Hierarchy

- Property has priority over an obligation
- Different ground rules
 - Example: Oldest right has priority

(ii) the ability to obtain substantially all of the benefit from the digital asset;

and

(iii) the exclusive ability to transfer the abilities in sub-paragraphs (a)(i), (a)(ii) and (a)(iii) to another person; and

Conclusions

- The separation between object and subject is disappearing
- This has a fundamental impact on the legal relationships between subjects
 - We need to think more in terms of relations and dynamics
