ELRA 20
European Land Registry Association ANNIVERSARY

IMOLA IV Kick-Off Conference

5th November 2024

IMOLA

A Journey 15 Years in the Making

We embarked on a journey toward creating a common template for national land registries.

Value and Collaboration

The value of the IMOLA project lies not only in its scope and complexity but in the collaborative spirit that has driven it from the beginning

New Goals, New Challenges, New Technologies

Continuous evolution: AI enhances registries, but human oversight is essential due to legal impacts.

ELRA 20
European Land Registry Association ANNIVERSARY

Role of Digitization and Future of Land Registries

E-justice strategy for 2024-2028

AI and the Future of Land Registries

EU AI Act: first regulation on artificial intelligence

This illustration of artificial intelligence has in fact been generated by AI

IMOLA IV: A New Beginning

This project aims to bring the European Land Registry Document (ELRD) to the next level, creating a more interconnected and efficient system of land registries across Europe.

A Collective Effort for a
Better Future

THANK YOU !
