Interoperable Europe Act IMOLA IV Kick Off Conference

interoperable
europe

Interoperable Europe Act in a nutshell

Helps EU and Member State administrations to deliver connected digital services to citizens and businesses across Europe.

What? Digital public services and their systems
All services requiring cross-border data exchange in EU.

Who? Union entities and public sector bodies
All entities that provide or manage digital public services.

Why? Better public services
Assess interoperability before binding decisions.

When? Entry into force in April 2024
Application from 12 July, except for Article 3 and 17 where application is from 12 January 2025.

Overview of main elements

Recognised reusable interoperability solutions

European Interoperability Framework
Interoperable Europe solutions
Mandatory share and reuse
Interoperable Europe Portal

Strengthened interoperability support

GovTech and interoperability regulatory sandboxes
Policy implementation support projects, trainings, peer reviews

Structured and co-owned EU cooperation

Governance (Board, Community, competent authorities, coordinators)
Interoperable Europe Agenda
Monitoring

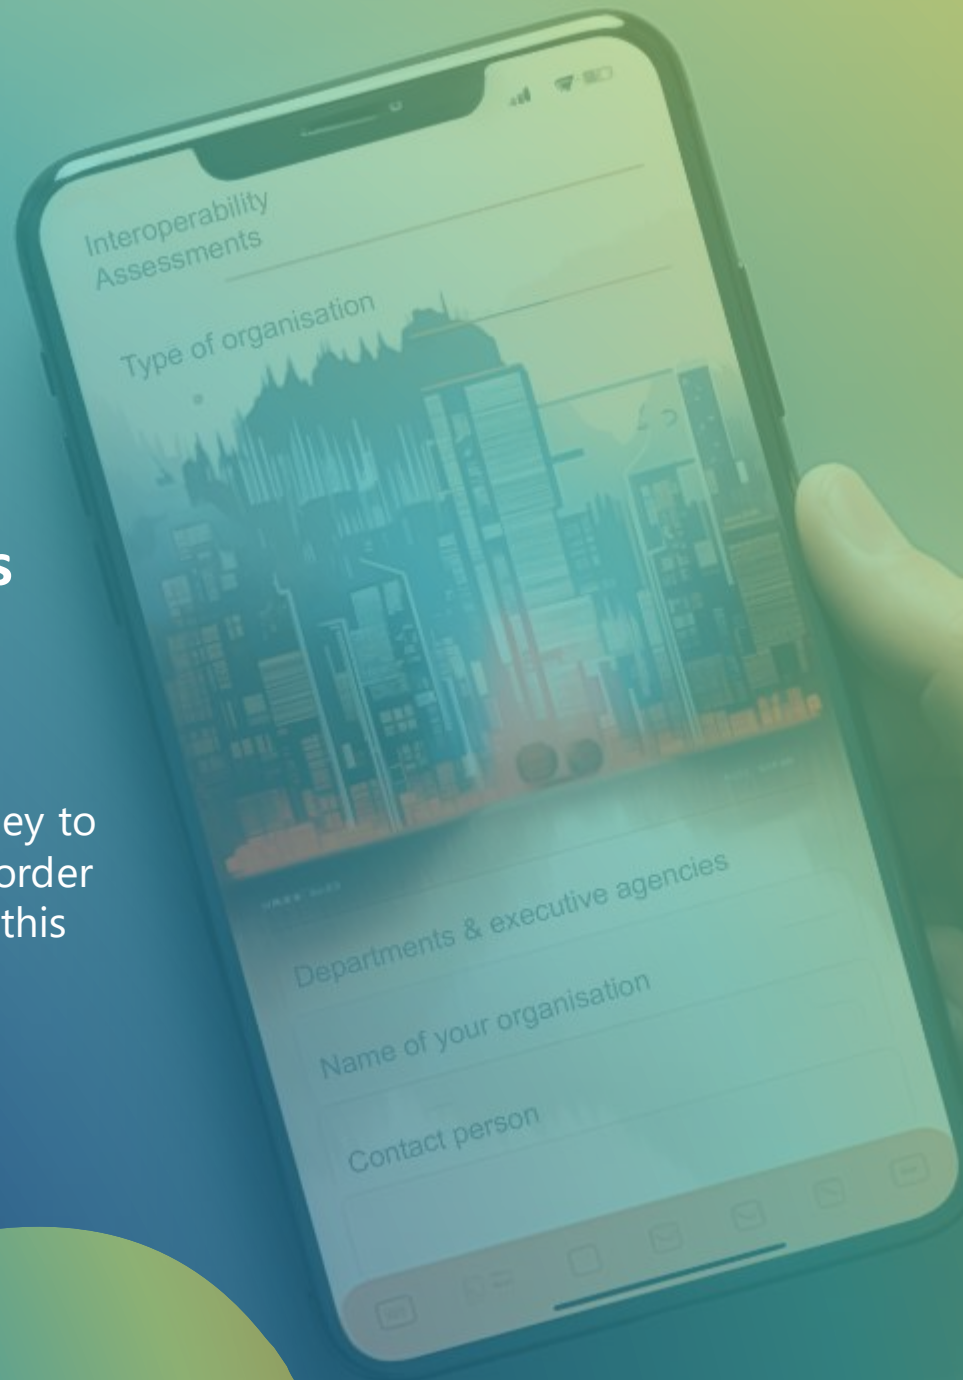

Mandatory interoperability assessment

Interoperability assessments

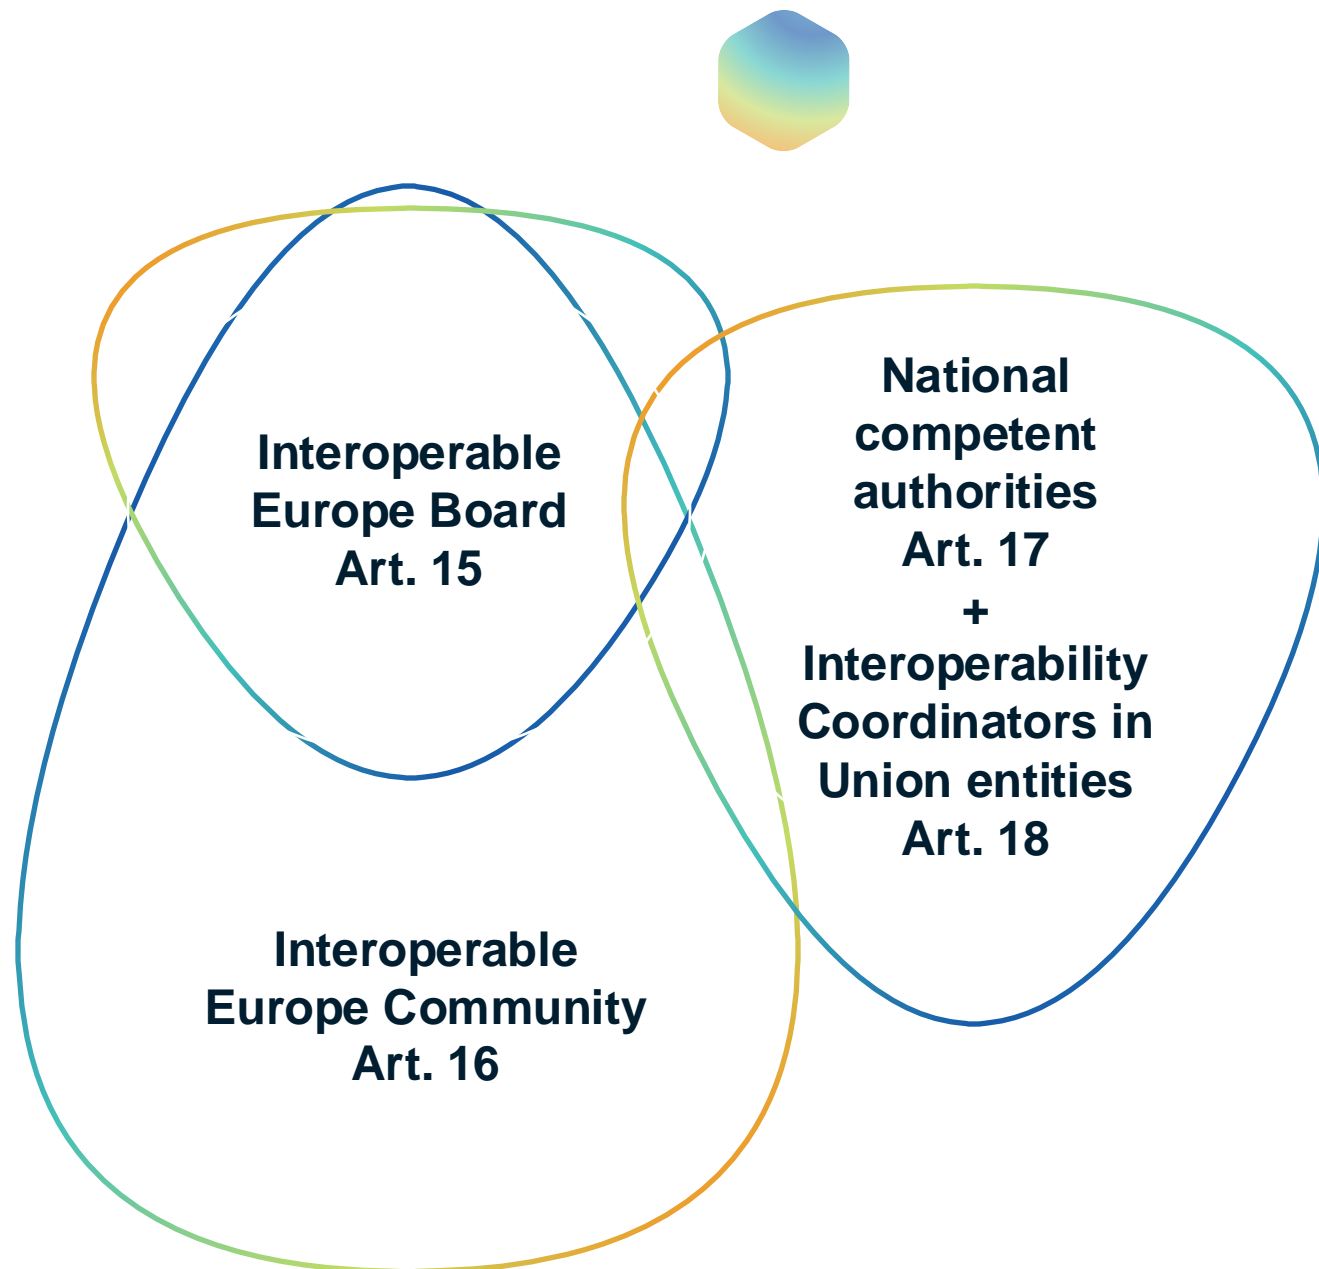

Interoperability Assessments (Article 3)

An interoperability assessment is a journey to discover opportunities for more cross-border interoperability, making the outcome of this discovery transparent in a report.

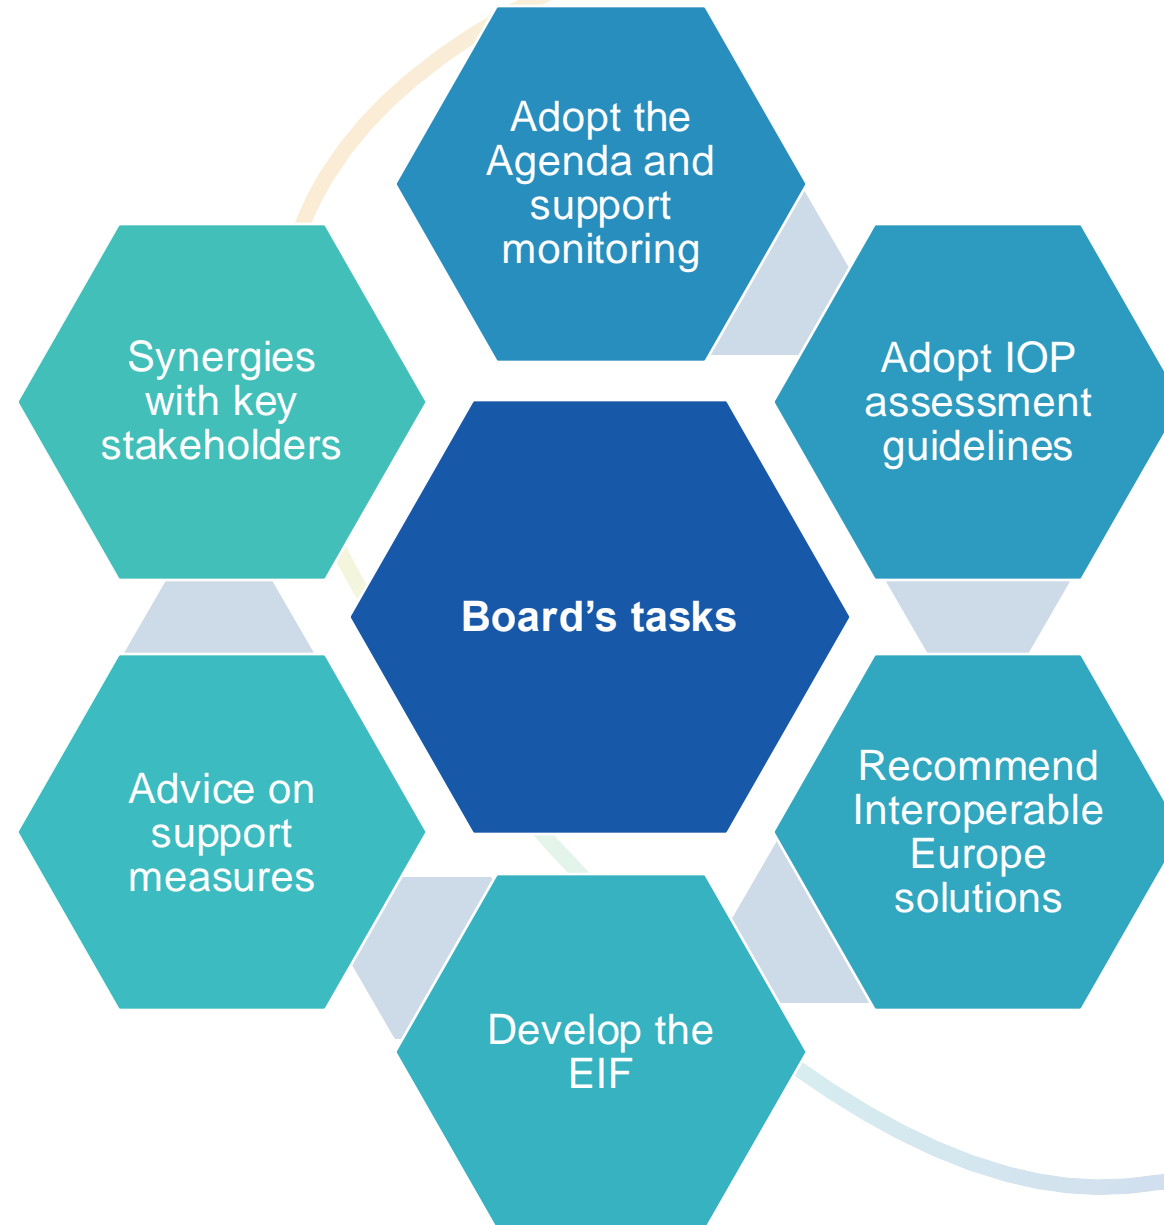

Interoperable Europe Governance

Interoperable Europe Board tasks in a nutshell

The Board should facilitate the development of the general direction of the Interoperable Europe structured cooperation in promoting the digital interconnection and interoperability of public services in the Union and oversee the strategic and implementation activities related to that cooperation.

New features include:

User-friendly access to Interoperable Europe Solutions

Home for the Interoperable Europe Community

Support for Interoperability Assessments, including the guidelines, best practices and tools

Common platform for sharing information on innovation measures, including GovTech and regulatory sandboxes

SEMIC

SEMIC activities

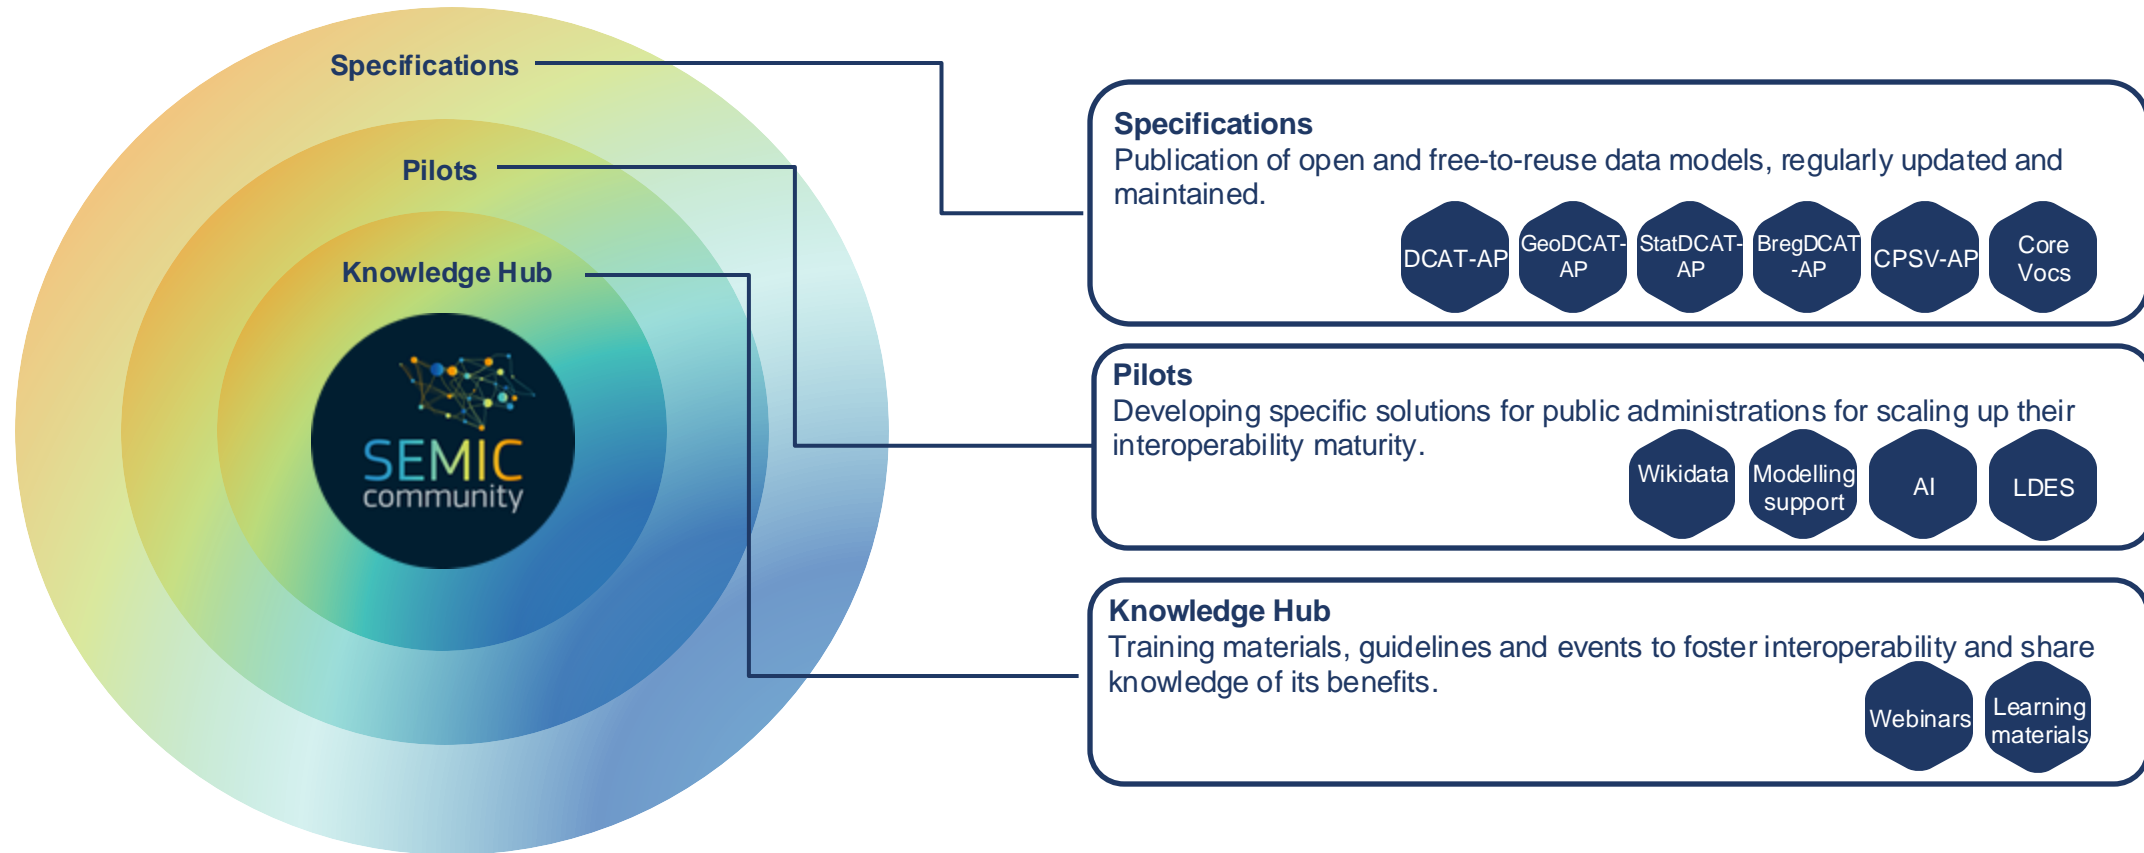

The objectives of the SEMIC action are to promote Semantic Interoperability amongst the EU Member States by:

-  Promoting the share and reuse of semantic assets, experience and tools and facilitating agreements in key areas.
-  Identifying opportunities for alignment on semantic definitions, metadata and reference data sources with special focus on identification and definitions of Core Concepts / Vocabularies.
-  Raising awareness on the importance of data and metadata management.

SEMIC

SEMIC's goal is to deliver pragmatic support to help build an interoperable Europe.

IEA - What's in it for land registries?

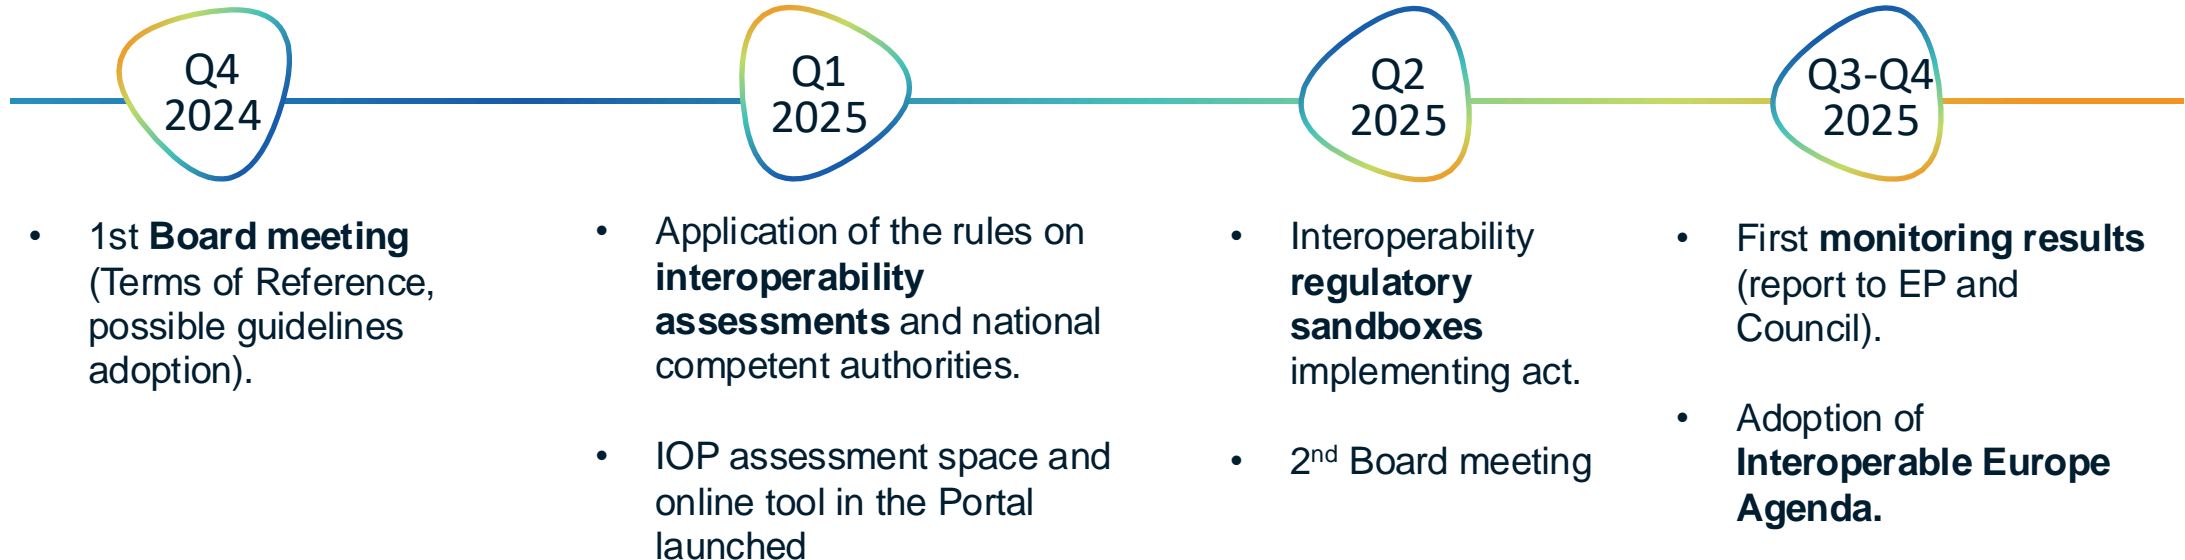

- Can contribute directly via the **Interoperable Europe Community** (incl. participation in operational tasks through working groups, advice to the Board, shape the Interoperable Europe Agenda);
- Can participate in **support measures**, e.g. GovTech incubator, regulatory sandboxes, peer reviews;
- Benefit from capacity building and re-usable interoperability solutions through the **Interoperable Europe Academy and Portal**;
- **Interoperability assessments** will trigger that more EU/MS proposals come with **reusable solutions**;
- Suggest potential **Interoperable Europe Solutions** to the Board;
- Obligation to **share interoperability assets**, under certain conditions and if requested
- Experience with interoperability between land registries (e.g. in cross-border) could inform the **discussions on the revision of the EIF**

Next steps

What's next?

2026: EIF
Communication?

Thank you!
